## August 2019

### SENIOR HOME REPAIR PROGRAM

With the “dog days of summer” upon us, the Senior Home Repair Program has seen an increase in the need for repair with air conditioning units. For many of our local seniors, this can be very hard on the respiratory system. Terry called upon the Senior Home Repair Program with this very problem; seeking help for his breathing discomfort during these humid days. With the help from the Senior Home Repair Program we have been able to continue repairing the A/C units to keep everyone comfortable this summer.

### HOMELESS SERVICES

July was a month for celebrating independence across the nation. This month, it is our pleasure, along with several other local agencies, to celebrate along with one of our local neighbors, a different kind of independence. Our friend, Henry will be celebrating his own independence this month from addiction and his own freedom in his new apartment. He has been working with three local agencies to get him rapidly rehoused, while mending his past and securing his future. In this particular case, drug and alcohol abuse has sent Henry to court, he has been on probation and while experiencing chronic homelessness, we have seen him here at the shelter six times in the past few years. With new motives for independence, and a fresh perspective of what the future has to bring, Henry can move forward with his independence and welcome a new life, all on his own.
